

TTG

TAS Technologies Group

SIMPLE, SECURE, COMPLIANT SOLUTIONS FOR EVERYDAY COMMUNICATIONS

*Providing the best solutions to the
TAS and call center industries.*

Featuring our on Prem Fax 2.0 Platform with the new
and improved Fax Dashboard.

Replaces Copia Faxing with our easy to use simple
Fax Solution. Works directly with Ultracomm and IS
Faxing

Home of the Experts

With 25+ years in the business we understand the industry & We're ready to help.

Key Features

- Instant notifications of Failures and Success

The Fax Dashboard is updated in real time letting you know the result of the fax. Information regarding the fax will be included so your team can take quick action.

- Resend, Redirect, Reschedule & Document Download

Right from the fax dashboard you can click a button to allow agents to resend the fax, redirect the fax to another fax number or send via email. Agents can also download/view the document. Agents no longer need to login to a remote server to access the Ultracomm or Copia Fax Status. Agents login into the web based Fax Dashboard to review faxes and take the needed actions.

- Unlimited Fax Trunks

No matter the number of pages, you can initiate a fax up to 1 fax per second. That's 60 faxes per minute or 3600 hundred per hour. There's no limit to how many faxes you can have going at the same time.

- Billing Stats

You maintain all the billing stats right on your SQL server giving you the power to bill your customers with any billing software you have.

- Simple, No Nonsense Pricing

No long term contracts, no automatic renewals. Just \$50.00 Base Rate and \$0.02 per minute. Add our eFax service to allow faxing from your desk via email for just \$25.00

Dashboard

- See a list of all your faxes, their current status and results
- Easily resend, redirect, email, reschedule or view the fax
- Search for specific faxes

Users

- Create and manage users

Application/Database Settings

- Set your number of attempts and delay between attempts
- Set your database backup and retention settings

Email Management

- Create your custom HTML email template for when you redirect the fax to an email address

Cover Pages

- Use an unlimited number of cover pages
- Added to your faxes based on the ASCII Template setting

The screenshot displays the TTG web interface for managing fax jobs. The top navigation bar includes the TTG logo, a back arrow, and the user name 'H6, Super Admin' with a profile icon. A left sidebar contains menu items: Dashboard, Users, Application Settings, Database Setup, Email Management, and Cover Page Management. The main content area is titled 'Fax Job list' and features search filters: 'All' (Filter by Status), 'mm/dd/yyyy' (Search by Schedule Date), and '2157523131' (Search by FaxTo or Message ID). Below the filters is a table of fax jobs.

FAX SCHEDULE DATE TIME	MESSAGE ID	ATTEMPTS COUNT	FAX TO	STATUS	ACTIONS
